

WINNING WITH AIG

Help when it matters most

UK Trade Credit

Being subject to a loss caused by non-payment by a customer or counter-party can be a challenging and disruptive experience. However big or small, our priority is to resolve your claim as quickly as possible, whilst providing you with the personal and proactive support you require.

As well as supporting you when a claim occurs, we also help you mitigate potential claims in the first place. Through our global claims data, fraud trend analysis and expertise around new exposures, our underwriters help to reduce and manage your risks more effectively. We also complete recovery efforts to further mitigate the impact of the loss by ensuring you receive reimbursement of your portion of monies recovered.

Giving you Confidence

Given the nature of our clients' businesses our insureds' claims are often front page news. Our claims adjusters are used to dealing with highly sensitive matters that may represent a large financial risk to our clients.

Working in Partnership

We work in partnership with our Insureds and their brokers to develop strategies focused on preventing losses from occurring and, where they are unavoidable, minimising those losses by providing local expert engagement as well as close interaction with our large network of advisors to manage distressed situations wherever they are located in the world.

"May I take the opportunity of thanking [the AIG Trade Credit Claims Team] very much for the professionalism, initiative and support you have shown in the past few months in respect of this matter.

In the 35 years that I have been involved in credit insurance, this is by far the largest claim I have been involved in and the experience has reaffirmed the standing I hold of AIG as a company.
